TECHNICAL SKILLS

- **Frontend:** HTML, CSS, JavaScript, React.js, Bootstrap, Tailwind CSS, Vite.
- **State Management:** Redux, React Query.
- **Database:** MySQL
- **Content Management System:** WordPress
- **Page Builders:** Elementor
- **Deployment:** Vercel, Netlify, GitHub Actions, C-panel.

WORK EXPERIENCE

OneForma (Freelance)

July 2025 – January 2026

Annotator

Remote

- Analyzed and labeled various types of data, including text, audio, and images, according to strict project-specific guidelines to ensure high-quality training data for machine learning models.
- Executed precise annotation tasks such as named entity recognition, sentiment analysis, and audio diarization to identify and categorize distinct elements within large datasets.
- Managed time effectively to meet tight project deadlines and deliver annotated data within predetermined timelines while working independently in a remote environment.
- Collaborated with project leads by communicating issues or ambiguities with data annotation guidelines to facilitate process improvements.

TrustLinkBk (Freelance)

WordPress Developer

April 2025

Remote

Elementor & MySQL

- Developed a dynamic user dashboard using WordPress and Elementor, enabling users to log in, view balances, and perform secure actions like transfers, withdrawals, and loan requests.
- Integrated custom forms and logic for transactional features using WP Forms plugins ensuring smooth UX for money transfers and loan applications.
- Implemented role-based access and user authentication, securing profile and account pages using User Role Editor plugin, ensuring data isolation and compliance with basic security standards.

Lunara E-commerce Makeup (Freelance)

Frontend Developer

Feb 2025- March 2025

Remote

React, Tailwind CSS, Framer Motion, Redux

- Built a responsive and animated front-end using React, Tailwind CSS, Framer motion, ensuring smooth UI transitions and a modern shopping experience across all devices.
- Implemented global state management with Redux to handle complex cart operations like adding, removing, and persisting cart items across components.
- Integrated external product data using Axios to fetch from a public API, dynamically rendering product listings with real-time updates and error handling.
- Designed a sliding cart panel with Tailwind and Framer Motion for an intuitive and engaging shopping cart experience.
- Applied component-based architecture for scalability and maintainability of the app structure.
- Ensured code quality and reusability with custom hooks and modular design.

The Kargo Delivery (Freelance)

WordPress Developer

Sep 2024 - Sep 2024

Remote

- Designed and developed a fully responsive cargo company website using WordPress and Elementor, showcasing services, pricing, and contact sections with a professional UI.
- Configured and styled tracking using WP Track plugin to match the site's branding and improve usability.
- Customized Elementor widgets and dynamic content to create service-specific pages, quote request forms, and status updates, enhancing client interaction and automation.

Bayotech Institute (Internship)

June 2019 – Feb 2020

Web Developer

Onsite

HTML, CSS, Bootstrap, JavaScript

- Developed and maintained dynamic web applications using PHP for optimal performance and scalability
- Implemented responsive front-end features with HTML, CSS, and JavaScript
- Collaborated with senior developers to integrate third-party APIs
- Gained hands-on experience with Git and followed best coding practices

EDUCATION

Ambrose Alli University , *Edo, Nigeria*

September 2022

Bachelor's degree in computer science
